T'S GONE! That awful agony! Rheumatism can't stand the rich, red blood that S. S. S. helps Nature build.

But rheumatism will bring pain

and misery to your joints and mus-cles just as long as you are with-out pleuty of rich, red blood in your system.
It's the red-blood-cells that S. S. S.

holps Nature build that drive out of your system the impurities that cause rhoumatism. And until you do build up your blood to where it is pure and rich and red, you simply can't get rid of rheumatism.
And S. S. S. is the thing. Red
blood conquers rheumatism. Everybody knows that.

S. S. S. means millions of red-blood-cells—means health all over. No more rheumatism. Nights of rest — days of joy, filled with the happiness of accomplishment—made possible by a body brimful of red blooded life, appered and vitality.

Saltcellar in Use as Table Ornament

The word "saltcellar" is a comsimilated in the Sixteenth and Seventeenth centuries to "cellar," meaning a storehouse. There are two types of ancient saltcellars, the large ornamental "salt," which dur-ing the Medieval ages and later, was one of the most important pieces of household plate; and the smaller "sair," actually used and placed near the plates or trenchers

placed near the plates or trenchers of the guests at table, and termed "trencher salts."

In Corpus Christi college, Cambridge, there is a salt vat, or cellar, that once belonged to Archbishop Parker. It is of gold and silver and is beautifully carved, standing about five inches high. The Bishop Fox salt vat at Oxford is another famous piece. In applications of the property of the famous piece. In ancient times the large ornamental "sait" acted as a dividing line at table between the high-born and those of more lowly origin, whose allotted place was "below the salt."-Dearborn Inde-

Wouldn't Bear Out Theory

Theoretically, a head-on collision between two freely moving bodies of the same weight and type would result in an equal shock to both, regardless of their speeds. The forces of impact act equally on both bodies, and in the case of two auto-mobiles would tend to throw all occupants forward in their respec tive cars with equal violence. However, in an actual collision between autos involving speeds as high as 50 miles per hour, so many unevaiuated factors would enter that it is probable that results would seldom. if ever, be exactly as expected from the ideal theoretical case.

Slam at Patent Lighter H C Wells is responsible for the following story: At a certain fancy dress ball all the costumes were intended to represent names of famous books. The majority of book titles were promptly recognized, but everyone was puzzled by the costume of one charming young lady. It was designed to look like a patent eigarette lighter. All sorts of titles were suggested, but to each one the girl shook her head. Finally, someone ventured to ask her outright the title of the book repre santial the time of the most repre-sented by her dress, "Why!" sic laughed, "Don't you see? It's "The Light That Failed."

The following political prognosdications have been made by W. T. Parker, former Democratic chairman of this county; and will be read with interest by all voters:

A few brave human beings have announced as candidates for office in the Daily Sun and Semi-Weekly Light Nearly every day have all kinds of questions put to me about county politics, one is, am I going to run for office? I will answer that question by saying that that is not a fair question. Another is, am I out of politics. No, I am just going into politics. For many years I have been hampered by the chairmanship, from ! political action. I am now free and ready to play ball. A very successful lawyer asked me Saturday (many others have also asked me) if I was not going to make a forecast of prospective candidates, This I will now do. Many of the names mentioned here are not even candidates. Some are. Others their friends want them to be

Where An American hangs his hat

Once a hat was not just a hat; it was also a badge of sectionalism. That was when the broad-brimmed Stetson and the nobby derby seldom met. South, East, North, West lived differently, dressed differently, thought differently. When a traveling American could feel like a stranger in his own land.

Before advertising—

But now Mrs. Green of Boston and Mrs. Brown of El Paso use the same vacuum cleaner, face powder, soap; Adams of Boston and Sims of Seattle are alike in the cut of their clothes. And where an American hangs his hat, within the borders of these United States, he feels at home. Advertising did that.

Advertising is still at work helping to make these states united. Here is a better bed, a handsomer shoe, a more delicious food. registered.

The business of December, 1925, increased 2 1-2 per cent as compared with December, 1924. The receipts for December, 1925, amounted to \$9,135.44 as compared with \$8,921.17, showing an increase of \$214.27.

For the ten day holiday period

from December 14 to 24, for 1985, the receipts amounted to \$4,970.24 as compared with \$4,132.26 for the same period in 1924. This was in increase of \$837.26, or an increase

of 20 per cent.
The largest day's sales for the year of 1925 was December 22, with \$1,518.32, as compared with \$1,122.72 for December, 22, 1924. This showed an increase of \$395.60 of 35 per cent.
From July 1 to December 31.

1924, the receipts amounted to \$41,097.45 as compared with \$40,-200.28 for the same time in 1925 a decrease of \$897.17; a decrease of 2 per cent.

The total receipts at the loral postoffice for the year of 1925 amounted to \$79,018.28, as compared with \$81,401.22 gor the year of 1924. The decrease in the re-ceipts for 1925 amounted to \$2,-382.83 or 3 per cent. In 1923 the total receipts amount-

ed to \$79,020.83 and the receipts of 1925 amounted to \$79,018.89, addifference of \$1.44.

It was pointed out that the peak of the oil boom was registered during 1924 hence the larger postal receipts. From the receipts of the postoffice the business conditions of Corsicana are thought to be approximately holding up to the high standards of the oil boom days remarkably well despite the drough

Today Three Years Ago the World's Biggest Oil Field was Discovered

And tomorrow, 3 years ago, the name of Corsicana was being discussed and featured in every city of America.

The above was a great blessing to many in Corsicana and Navarro County.

We are offering now a service of Life Insurance at cost (plus small operating expense)—this is a service that goes direct to your own hearth-stone and helps your own loved ones.

The Insurance Business and the Oil Business are two of the biggest businesses in the world and we intend to devote the rest of our life in promoting and helping our fellow man to see and recognize the fact that we can cut out the middle man, sky scraper, money lending, high price, insurance companies and carry it ourselves.

Take the Life Insurance Records of any State in the union and you will see the great need of this service—the writer is vice-president and state agent of the M. P. A. of Texas—an "assessment as needed" insurance association that is operated along honest, and business-like principles. We are one of the largest in Texas, and at present have on a Special Admission fee of \$2.00 for seniors, ages 55 to 65, and in our various Adult Classes ages up to 55, admission fee is only \$1.00 each; children 50c each.

Mr. J. M. Dyer, President, Chamber of Commerce, Corsicana, Texas.

Dear Mr. Dyer:—I want to take this opportunity of congratulating you and your organization upon the appointment of Roy Christian as secretary of your Chamber of Com-

tionably selected the best available man in Texas for the position. In the three years that he has been with us he has made a most envi-able record. His achievements as Secretary were far beyond our every expectation.

Mr. Christian is a most unselfish worker and persistently avoids self-

exploitation. His success is due to his natural ability coupled with conscientious effort. I have yet to hear a single adverse criticism concerning him or any action on his sincere regret of the people of this

entire section.

While of course Seguin is the best town of its size in Texas, we recognize the fact that Corsicana is a fine progressive city and a larger field of opportunity for Mr. Christian to labor in; and although we feel his loss very keenly, we rejoice greatly in the advancement which he so justly deserves.

If at any time our organization can be of any service to you, please do not hestitate to call on us.

J. Y. Roberts Announces

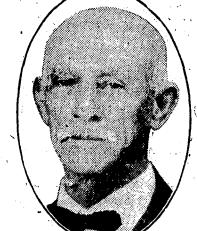

The Establishment of Offices in the new

State National Bank Building

and gives out some valuable information regarding farm loans

(From the Daily Sun.)

J. Y. Roberts, Secretary-Treasurer of the Corsicana National Farm Loan Association

Gives Some of the Reasons Why the Farmers of Texas Should Patronize the Federal Land Bank Through the Farm Loan Association

"First, This is an age of co-operation," said Mr. Roberts, "and the most successful organizations in America today are those that have joined hands in co-operation on a big

It has been but a short time since if you went to buy a ticket to Houston or Dallas, it read Houston and Texas Central R. R., now it is Southern Pacific System. It was either Wells Fargo or Texas Pacific Express Company, now it is American Railway Express, all of which means co-operation," he continued.

"It has been but a short time since the fruit growers of East Texas went from house to house or from town to town to sell their fruit, but today you-can see train load after train load go from almost all of the East Texas towns under the direction of the Fruit Growers' Association, and nothing brought

this to the farmer but co-operation. "Let us look at the loan business for a period of years. When I came to Texas it was a common thing to see notes bearing from 15 to 25 per cent, and this condition continued until the Usuary law was passed making 10 per cent the legal interest. In 1884 the Texas Loan Agency was established with headquarters in Corsicana, and their terms were; a loan of five years at 10 percent interest with no privileges whatever. Interest rates continued around 8 and 10 per cent until 1917, shortly after the Farm Loan Law was placed upon the statute books—and all these years these Eastern money sharks were loaning the Northern and a Eastern farmers at from 4 to 6 per cent with no better security, if as good as the Texas farmer had to offer him-I am one of these people who believe that we in the South and West are entitled to just as cheap money as any people in the U.S., because our securities are superior to the great bulk of the Northern securities.

"About 1918 the old line loan and life insurance companies ran an injunction against the Federal Land Bank declaring it unconstitutional for the farmers to be allowed the privilege of free tax securities and closed us down for more than 18 months. They then changed their tactics and would not loan you money for a shorter period than 10 years, at from 8 to 10 percent interest, and would not allow you to pay off your loan until the 10 years expired, or, if they did you must pay interest for the full ten years. Furthermore the Deed of Trust does not say when it is due but refers the borrower and the public who look at the record to the

terms of a certain note given at a certain time but no one but the loan company located somewhere in the East knows where this note is. Not so with the Federal Land Bank. Our deed of Trust plainly states the terms upon which you can pay your obligation off, any part or all at any time, and stop the interest at the date you pay your

"Again the farmer should remember that this is the first law ever put upon the statute. books for the farmer exclusively and he should do all in his power to perpetuate it. Their plea was and is today that it is class legislation and unconstitutional for the farmer to receive the money through the benefit of free tax securities.

"Let us go back just a few years and see the unfairness of the opposition. Just after the Civil War Congress passed a lawallowing all cities, towns and villages the benefit of free tax securities in the way of sewer and other municipal bonds and they hailed the law with joy, and for fifty years they enjoyed this privilege. You will bear in mind that at that time there were 5000 people-living inside of corporations in the North and East to where there was one person living inside the corporation in the South and West. And all of this time the farmers in the South and West had to work their families in the fields to pay the interest on these bonds, and not only this but they would send the vendor's lien notes. bearing this exorbitant rate of interest back to the East and pay no taxes on them, which worked a double hardship on the farmers of the South and West. And, just as soon as these free tax securities were extended to the farmer they raised a great howl of "unconstitutional." While they knew it was not true they took this advantage to hold us up as long as they could, and today they are spending thousands and thousands of dollars, through the different periodicals, scattering propaganda to have the Farm Loan Law repealed.

"So it is not only a privilege but the duty of every farmer to patronize the Farm Loan Association because this is purely a co-operative agency and exclusively for the farmers. The entire stock of the Federal Land Bank of Houston, Texas, is owned by farmers, and if you shut the Farm Loan Associations down then interest will go up to an unreasonable rate with no privileges for the farmer, and thereby work a hardship not only on you and your family, but also on your neighbors."
